

Propeller Record General Information

Propeller Manufacturer Hartzell

Model HC-A2V20-4A1

Hub Series # AK460

Date of Manufacture _____

Type _____

Blade # _____

Make/Model

Aircraft Installed On:

Beechcraft B35 (N8819A)

Serial #

D-2235

installed 1/25/2024

MADE INSPECTIONS, REPAIRS AND ALTERATIONS

Make **HARTZELL** Model **HC-A2V20-4A1**

Serial Number **AK460**

The propeller identified above has been

REPAIRED/OVERHAULED/INSPECTED

In accordance with manual 171

and is approved for return to service.

Details on file under work order and 8130-3 number 10607

01/25/2024 N8819A Hartzell model: HC-A2V20-4A1 SER: AK460 Tach: 233.1 PTT: unknown PSOH: 0.0

Installed Hartzell propeller, Model Number HC-A2V20-4A1 S/N: AK460 due to old hub did not pass overhaul specifications (for further information see previous logbook entry and FAA Form 8130-3 dated 01/16/2024). Propeller was torqued to specs, and safety wired. Performed **annual inspection**. Replaced hub adapter gasket, seals, centering cone, and centering cone gasket. Inspected propeller, spinner, hub, blades and bulkhead, reinstalled spinner. Performed AD compliance and found there to be no applicable AD'S due at this time. The following AD'S were complied with at propeller overhaul dated 01/16/2024. AD97-18-02R1C was P/C/W by Foster's Propeller Service at overhaul, next due at AFTT: 3897.36, PSOH: 500.0; AD85-14-10R2 verified no longer applicable due to affected serial number of parts not installed. Pertinent details for work order #3023 are on file at K.R.T. Aviation. All work was performed in reference with the manufacture's maintenance manual. I certify that this **annual inspection** was performed in accordance with 14 CFR 43 appendix D and using manufacturer's maintenance manual as reference and this **PROPELLER** was determined to be in an airworthy condition for return to service.
